RESEARCH PROFESSIONAL

We are looking for a highly skilled and motivated individual to work as a full-time research professional for a period of one to two years. This individual will work with and be supervised by Chicago Booth Professors Steven Kaplan and Anastasia Zakolyukina on projects of theirs and their co-authors.

The ideal candidate will: (i) have a strong quantitative background; (ii) have strong computer skills including programming; (iii) be able to work independently to solve problems; and (iv) have a long-term interest in pursuing research in economics or finance. Background in economics or finance is a plus, but not necessary – we welcome candidates with strong technical backgrounds who are looking for more exposure to economics or finance.

If interested, please complete a formal application (including a cover letter briefly describing your career/study goals, and telling us how you learned of this position and a CV) at https://jobopportunities.uchicago.edu/applicants/Central?quickFind=227951. This link should take you directly to our posting. If for any reason it does not, please search for requisition number 098272.

The University of Chicago provides equal employment opportunities to all employees, applicants, and job seekers. No person shall be discriminated against in employment or harassed because of race, color, religion, sex, sexual orientation, gender identity, national or ethnic origin, age, disability, veteran status, genetic information, marital status, parental status, ancestry, source of income, or other classes protected by law. This policy includes the commitment to maintaining a work environment free from unlawful harassment.
